June 30, 2020

Honorable Mayor, Members of the City Council, City Manager, and Residents City of Plymouth, Minnesota

Minnesota Statutes require all cities to prepare and issue an annual report on their financial position and activity in accordance with U.S. Generally Accepted Accounting Principles (GAAP), and audited in accordance with U.S. Generally Accepted Auditing Standards by a firm of licensed certified public accountants, or the Office of the State Auditor. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Plymouth for the fiscal year ended December 31, 2019.

This report consists of management's representations of the City of Plymouth's finances. Consequently, management assumes full responsibility for the completeness and reliability of the information presented in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation for the city's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the city's comprehensive framework of internal controls was designed to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatement. As management, we assert that, to the best of our knowledge and belief the financial report is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the city as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the city's financial affairs have been included.

The City of Plymouth's financial statements were audited by Malloy, Montague, Karnowski, Radosevich, & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements for the fiscal year ended December 31, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the City of Plymouth's financial statements for the fiscal year ended December 31, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The organization, form, and contents of this report were prepared in accordance with the standards prescribed by the Governmental Accounting Standards Board (GASB), the Government Finance Officers Association of the United States and Canada, the American Institute of Certified Public Accountants, the Minnesota State Auditor's Office, and the Plymouth City Charter.

This transmittal letter is designed to complement the Management Discussion and Analysis (MD&A) and should be read in conjunction with the MD&A. The MD&A can be found immediately following the independent auditors' report.

Reporting Entity

In accordance with GASB statements, included are all funds of the city and its component units. The Plymouth Housing and Redevelopment Authority (HRA) is included as a discretely presented component unit. The Plymouth Economic Development Authority (EDA) was created in 2016. The EDA is included as a blended component unit, however, there was no financial activity during the year.

Profile of the Government

The City of Plymouth, incorporated in 1955, is a suburban community located northwest of Minneapolis in Hennepin County. The City has a land area of 35 square miles and serves a population of approximately 79,000 residents. Plymouth is currently the 7th largest city in the state. The city has excellent access to the Minneapolis-St. Paul metropolitan area via interstate highways I-494 and I-394, US Highway 169 and Minnesota State Highway 55.

Policymaking and legislative authority are vested in the City Council consisting of a mayor, four ward council members, and two at-large council members. The mayor and council members are elected on a non-partisan basis to serve four-year terms, with council members serving staggered terms. The Council is responsible for passing ordinances, adopting the budget, appointing board and commission members, and hiring a city manager. The city manager is responsible for carrying out the policies and ordinances of the Council, overseeing day-to-day operations of city government, and for hiring all employees.

The city provides a full range of services to residents and businesses, including police and fire protection, construction and maintenance of streets, municipal water and sanitary sewer service, maintaining parks and trails, providing recreational activities, planning, zoning and inspection services, transit services and administration.

The annual budget serves as the foundation for financial planning and control. The city uses a biennial budget model, covering two fiscal years, for planning purposes. The first year of the budget is adopted as the annual budget; the second year is adopted in concept, pending the approval of a new tax levy in the second year. All departments and agencies submit requests for appropriation to the city manager in July of each year. The city manager uses these requests as the starting point for developing a proposed budget. The proposed budget is presented to the Council for review prior to August 31. The Council adopts a preliminary budget and tax levy by September 30 of each year. Minnesota Statutes require a budget meeting be held for the public to provide comments. The final budget and tax levy are adopted by December 31, the close of the City of Plymouth's fiscal year.

Economic Condition and Outlook

The city's population grew substantially during the 1980s and 1990s, increasing by 61%. Plymouth's population increased 29% from 1990 to 2000; 7% from 2000 to 2010 and 13% from 2010 to 2019. As of 2019 the population is 79,475. The key relationship between development and the budget is our ability to generate sufficient funds to deliver appropriate public services.

The city continued a progressive and sound financial program throughout 2019, while providing core services as well as services that are intended to enhance quality of life. Community surveys and national publications rate Plymouth's services at a very high level.

Shortly after the 2019 fiscal year-end, the worldwide spread of the novel coronavirus (COVID-19) has caused significant volatility in the economy and financial markets. There is significant uncertainty about the breadth and duration of potential business disruptions related to COVID-19 and its economic impact in the United States and around the world. At this time, the City is unable to determine what effect this may have on its future financial condition. Although current external economic conditions are challenging, Plymouth's continued growth and sound financial condition, as reflected in the following financial report, place the city in an enviable position.

The payable 2019 total estimated market value of the City was \$12,219,492,800 an increase of \$869,819,700 from 2018. The increase in total market value between payable 2018 and payable 2019 was 7.7%.

Commercial and residential growth is increasing as development expands to the northwest area of the City and as commercial properties redevelop.

^{* 2019} estimated population

Long-term Financial Planning

The city has prepared biennial budgets since 2008. In 2019, the city prepared the biennial budget for the period covering fiscal years 2020-2021. This important document required significant planning and scenario building to ensure a workable operating budget under changing economic conditions.

The City also continually updates a ten year revolving financial plan for the General Fund. This is a critical tool utilized during the budget process to guide discussions and model the impact these decisions will have on the community.

Planning is the key to the development of a diverse economic base without sacrificing the standards required to ensure quality and order. Industrial, commercial and utility properties make up about 40% of the city's tax capacity. The city's land use guide plan designates all land uses including areas available for commercial and industrial development.

The City continues to rely on its Comprehensive Plan, a long-term planning document that guides the community's future development and redevelopment.

In 2019, the City extended it's five year capital plan to ten years to provide a more comprehensive look at upcoming projects.

^{**} Population figures through 2010 are based on census reporting.

In 2018, the City implemented an asset management software called Cartegraph within the Parks and Forestry, Public Works, and Engineering divisions. Cartegraph allows the City to manage its assets more effectively, allowing for a more seamless succession planning transition, deploys and tracks resources efficiently, and better tracks asset conditions to help make more informed capital replacement/upgrade decisions. In 2019, as an extension of this software, the city implemented SeeClickFix which incorporates a customer portal to streamline communication with customers. This software tracks questions and responses with regards to any assets or services provided by the City.

Plymouth is continually evaluating its position to ensure the community is prepared for future phases of development and redevelopment, able to adapt to unforeseen economic challenges, and able to meet the needs of a maturing community.

Currently underway are a couple larger renovation and expansion projects. The first is Plymouth Creek Center (PCC) expansion project. Built in 1997, the PCC is still a well-used community space with over 300,000 annual visitors. Even though the PCC is valued and well utilized, it is not without its challenges. The size and types of spaces do not meet current and future needs of a growing community with an appetite for active recreation programs and services. The second project, is renovation of two of the city's three fire stations. Station 2 is nearing the end of its useful life span and doesn't have the operational or programming space to support the needs of current and future response models and station 3 has significant health and safety concerns and also does not meet the needs of the current department profile. To enhance technology to residents and businesses to meet the needs of the community, the city implemented community development software (BS&A) that provides enhanced permit tracking and the ability to provide online payments.

Financial Policies

Accounting records are maintained on the accrual or modified accrual basis, as appropriate. Budgetary control is maintained by an encumbrance system whereby purchase orders are pre-audited as to availability of funds prior to their release to vendors. Purchase orders which exceed appropriation balances, or were not approved, are not released until funding is available or approval is given. Open encumbrances are reported as assignments of fund balance. The budget, as adopted, can be revised by the City Council and a contingency appropriation is provided for.

Independent Audit

State statutes require an annual audit of the books of account, financial records, and transactions of all administrative departments by independent certified public accountants selected by the City Council. The city is in compliance with state statutes, and the independent auditors' report has been included in this report.

Awards and Acknowledgements

GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Plymouth for its Comprehensive Annual Financial Report for the year ended December 31, 2018. This was the 37th consecutive year that the City of Plymouth has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. The report must satisfy GAAP requirements and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement program's requirements, and it will be submitted to the GFOA to determine eligibility for another certificate.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Administrative Services Department. We would like to express our appreciation to all members of the department for their work in preparing this report. We also wish to thank the city manager and members of the City Council for their interest and support in planning and conducting the financial operations of the city in a responsible and progressive manner.

Respectfully submitted,

Dode Bursheim

INDEPENDENT AUDITOR'S REPORT

To the City Council and Management City of Plymouth, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Plymouth, Minnesota (the City) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

OPINIONS

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund and the major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, supplementary information, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

Prior Year Comparative Information

We have previously audited the City's 2018 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information in our report dated June 10, 2019. In our opinion, the partial comparative information presented herein as of and for the year ended December 31, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated June 12, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosewich & Co., P. A.

Minneapolis, Minnesota

June 12, 2020

As management of the City of Plymouth, we offer readers of the City of Plymouth's financial statements this narrative overview and analysis of the financial activities of the City of Plymouth for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages v-ix of this report.

Financial Highlights

- At year-end 2019, the City of Plymouth's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$511.6 million (*net position*). Net position consisted of:
 - ➤ \$51.9 million (10.2% of total net position) restricted for specific purposes
 - ➤ \$377.2 million (73.7% of total net position) represent the City's investment in long-term assets (including roads, bridges and other infrastructure assets) net of long-term debt used to finance these assets
 - ▶ \$82.4 million (16.1% of total net position) are unrestricted and are available to meet the City's obligations consistent with City policy, legislative intent and direction of the City Council.
- Governmental activities recognized an increase in net position of \$7.8 million and business-type activities resulted in an increase of \$8.1 million. Overall, the City's net position increased by \$15.9 million in 2019. Operating and capital grants and contributions increased significantly due to construction activity; along with cost savings from personnel attrition and overall restraint on spending resulted in an increase of \$15.9 million to the net position.
- The City's governmental funds reported combined ending fund balances of approximately \$70.5 million. Unlike net position, governmental fund balance measures only currently available, spendable resources. Approximately \$531 thousand of total governmental fund balances are nonspendable such as inventory, prepaid items and principal of the Cemetery Perpetual Care fund. The city's restricted fund balance is approximately \$24.0 million for specific purposes that are subject to external legal restrictions such as debt service and other restrictive uses. The remainder fund balance of \$45.9 million is comprised of \$39.3 million of assigned fund balance for purposes such as construction of long-term assets or other desired uses and \$6.6 million is unassigned.
- The City's main operating fund, the General Fund, reported a year-end balance of approximately \$17.4 million. The General Fund's balance represents approximately 40% of subsequent year annual budgeted spending in this fund. Fund balance in the General Fund increased \$730 thousand during the year.
- The City's total governmental activity bonded debt decreased by approximately \$1.1 million, or 11.3% from the prior-year. This debt represents a very modest ratio of only 2.5% of governmental net position. The City's restricted resources for governmental debt service are approximately \$2.2 million which represents approximately 26.1% of governmental debt outstanding at year-end. The City's business-type activity bonded debt decreased \$1.0 million, with the final payment in the current year. Net revenues of the Water Sewer Utility were pledged for the debt service of the business-type activities.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the City of Plymouth's basic financial statements. The City of Plymouth's basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements - *government-wide financial statements* provide users with a broad overview of the City's finances similar to the financial statements of private-sector businesses.

The *statement of net position* presents information on all of the City of Plymouth's assets, liabilities and deferred inflows/outflows as applicable, with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Plymouth is improving or deteriorating.

The *statement of activities* presents information showing how the City of Plymouth's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Plymouth that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Plymouth include general government, economic development, parks and recreation, public safety, public service, and public works. Business-type activities are primarily financed through user-charges or fees. The business-type activities of the City of Plymouth include the water sewer utility, ice center, water resources, solid waste management and field house.

The government-wide financial statements can be found on pages 15-17 of this report.

Fund Financial Statements – A fund is a group of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The City Council establishes funds for a variety of purposes, the most important of which is to promote fulfilling its stewardship role with respect to using certain resources such as taxes and grants. The City of Plymouth's funds are divided into two major groups: governmental funds and proprietary funds. Each of these types of funds needs and uses different accounting approaches to provide information relevant to their functions.

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a governments near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The governmental fund statements are on pages 20-28 of this report.

Proprietary Fund statements, like the government-wide statements, measure all the economic resources of a fund and the claims against those resources. Also, like government-wide statements, the proprietary fund statements use a full accrual method of accounting for changes in the assets, liabilities, and deferred outflows/inflows of the fund. The City uses proprietary funds to account for two types of activities.

Enterprise funds account for functions, which are reported as business-type activities in the government-wide statements. The City of Plymouth uses enterprise funds to account for its water sewer utility, ice center, water resources, solid waste management and field house operations. Internal Service funds are businesses whose primary customer is the government itself. These funds are an accounting device used to accumulate and allocate costs internally among the City of Plymouth's various functions. The City of Plymouth uses internal service funds to account for central equipment, public facilities, information technology, risk management, employee benefits and resource planning functions. Most of the costs allocated through internal service funds benefit the government activities rather than its business activities. Therefore, internal service activities are included among the City's governmental activities in the government-wide statements.

Proprietary fund statements are on pages 30-39 of this report.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 41 - 79 of this report.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Plymouth, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by approximately \$511.6 million at the end of fiscal year 2019. A portion of the City of Plymouth's net position (73.7%) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City of Plymouth uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Plymouth's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City of Plymouth's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$82.4 million) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Plymouth is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The net investment in capital assets increased due to significant capital asset activity using City resources.

- Governmental activities Governmental activities increased the City of Plymouth's net position by approximately \$7.8 million or 2.4%. Several factors contributed to this increase include additional capital construction, elevated development activity throughout the city resulting in significant increase in permit revenue, increased fair value of investments, and significant cost savings from personnel attrition and overall restraint on spending.
- **Business-type activities** The net position of business-type activities increased by \$8.1 million or 4.8%. The change in net position is the result of a positive increase from operations and capital grants.

The following table indicates the changes in net position for the City's governmental and business-type activities:

City of Plymouth, Minnesota Changes in Net Position

Operating grants and contributions and Public Works expenses increased significantly as a result of a joint bridge improvement project with the State and County. Capital grants and contributions decreased based on the nature of capital projects completed during the year.

Governmental Activities:

Revenues - A distinguishing financial characteristic of governmental activities is that the cost of government is paid, at least in part, by taxes. Revenues financing the City's governmental activities costs were as follows:

Revenue Sources – Governmental Activities

Most of the City's revenues are "home-grown"; the City of Plymouth does not rely heavily on State aids or grants. This helps insulate the City from changes imposed by the State Legislature. Capital grants and contributions represent funds received for the construction of infrastructure and other capital improvements. Certain operating grants and contributions represent contributions on joint projects managed by the city.

Business-type Activities

The City's Business-type activities provide water sewer utility, ice center, water resources, solid waste management, and field house services to its residents. The City's business-type activities are accounted for, financed, and operated in a manner similar to private business enterprises. It is generally intended that the cost of providing services to the public be financed or recovered primarily through user charges.

The City's business-type activities are capital intensive. The City's investment in capital assets (net of accumulated depreciation) of its business activities totaled approximately \$144.6 million in 2019; which is approximately 80.7% of total business-type assets.

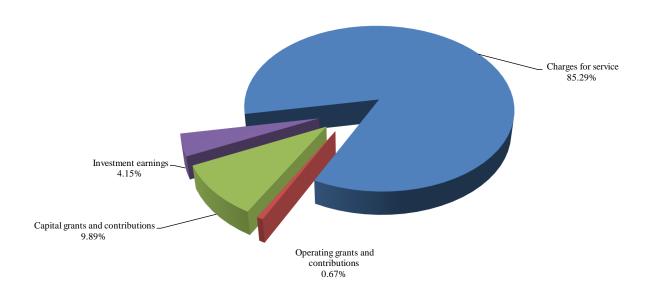

The principal challenge for the City's business activities is financing the replacement, maintenance, and expansion of their capital assets (asset maintenance). The City of Plymouth combines operating and non-operating sources (primarily area-wide assessments) to finance its investment in business-type assets.

Operating income starts with revenues generated by charges for sales and service. As of December 31, 2019, there were 23,917 water and/or sewer customers. The water and sewer utility represented approximately 71.5% of total business-type charges for service revenue in 2019. Operating income alone is not sufficient to provide for the replacement, maintenance and expansion of the City's business-type capital assets. Depreciation allocates the cost of capital assets over their estimated useful lives; it approximates the amount of capital assets "used-up" during the year. The City's business-type activities generate positive operating income.

In 2019, the City reported positive operating income, in total, excluding depreciation, of approximately \$6.9 million. After depreciation, the City reported an operating income of approximately \$513 thousand. After considering remaining increases and decreases to net position, business-type activities reported an increase of \$8.1 million.

The following chart illustrates the City's revenue sources for its business-type activities:

Revenue Sources – Business-type Activities

Financial Analysis of the City of Plymouth's Funds

As noted earlier, the City of Plymouth uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City of Plymouth's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Plymouth's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the amount of available, spendable resources potentially available for appropriation by the City Council to finance the City's day-to-day activities.

General Fund-

- The fund balance of the General Fund is the City's principal liquidity reserve.
- ➤ The City Council has adopted a long-range financial plan to provide adequate operating cash for future years. The goal is to maintain a total fund balance of approximately 40% of the General Fund expenditure and transfers out budget for the following year. The City met this goal in 2019; the fund balance at year-end was \$17.4 million, or 40% of 2020 budgeted expenditures and transfers out.

Transit System Fund-

➤ In the Transit System Fund, the fund balance increased by \$1.4 million. This increase is primarily due to an increase in the City's proportionate share of motor vehicle tax.

General Capital Projects Fund-

The fund balance increased in the General Capital Projects Fund by \$192 thousand during the year. This increase is due to approved funding transfers of various capital projects throughout the current year for construction of the City's buildings and park improvements.

Improvement Projects Fund-

The fund balance decreased in the Improvement Projects Fund by \$12.9 million during the year. This decrease is due to the timing and review of capital projects completed throughout the current year for construction of streets and other infrastructure improvements.

Street Replacement Fund-

➤ The fund balance increased in the Street Replacement Fund by \$729 thousand during the year. This increase is due to taxes and fees collected, investment earnings, and the increase of capital projects completed throughout the current year for construction of streets and other infrastructure improvements.

Of the total governmental funds fund balance of \$70.5 million, \$531 thousand is nonspendable, \$24.0 million is restricted for specific uses based on external regulations, \$39.3 million is assigned internally for specific uses and \$6.6 is unassigned.

Proprietary Funds – The City of Plymouth's *proprietary funds* provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

Water Sewer Utility Fund-

➤ Unrestricted net position at the end of the year was \$9.7 million. The total increase in net position was \$1.9 million.

Ice Center Fund-

➤ Unrestricted net position at the end of the year was a deficit \$90 thousand. The total increase in net position was \$1.8 million.

Water Resources Fund-

Restricted net position at the end of the year was \$3.9 million. The total increase in net position was \$3.7 million.

Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Plymouth's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The final General Fund budget represents the originally adopted budget, since no amendments were approved during the course of the year by the City Council.

The 2019 General Fund budget anticipated an expenditure and transfers out increase over 2018 budget of 5.4%. This increase included planned wage and benefit adjustments and inflationary adjustments.

General Fund revenues and other financing sources exceeded budget estimates by \$1.9 million during the year. Contributing factors for this increase included additional license and permit revenue due to elevated development activity and increased state grants and aids.

General Fund expenditures were over budget estimates by \$235 thousand due to a pass-through grant for economic development that was offset by revenue. The remaining change is due to decreases in personal services costs due to attrition and cost restraints shared by all departments. Other financing uses exceeded budget by \$919 thousand. The primary reason for this overage was that the net positive year-end position allowed the General Fund to make unplanned transfers of \$885 thousand to the General Capital Projects fund for future improvement projects.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The City's total investment in capital assets, net of accumulated depreciation totaled \$386.0 million at year-end.

Components of the City's capital assets by type and activity are described in the table below:

City of Plymouth, Minnesota Summary of Capital Assets

(amounts in thousands of dollars)

See footnote 4, pages 54-56, to the financial statements for additional information about the City's capital assets.

Long-Term Bonded Debt

The City's long-term bonded debt (excluding unamortized premiums) totaled \$8.3 million at year-end, compared to \$10.3 million at the beginning of the year. During the year, the City made regular debt service payments of \$1.0 million on governmental activity bonds and \$1.0 million on business-type activity bonds.

The City's debt holds the highest rating from Moody's Investors Services: Aaa, as well as from Standard and Poor's Ratings Services: AAA. The dual rating placed City of Plymouth among only six other cities in the state to receive this distinction.

See footnote 5, pages 57-60, to the financial statements for a schedule showing the City's long-term debt activity.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2020 budget was conservatively developed to account for economic and legislative activity. It provides for a balanced budget and a sound financial plan for 2020 that maintains core service levels and is sensitive to the financial concerns of Plymouth taxpayers. The tax levy increased 7.3% from 2019.

As a result of the City's responsible stewardship, the quality services our residents have come to expect continue to be provided at a reasonable price.

Shortly after the 2020 fiscal year began, the worldwide spread of the novel coronavirus (COVID-19) has caused significant volatility in the economy and financial markets. There is a significant uncertainty about the breadth and duration of potential business disruptions related to COVID-19 and its economic impact in the United States and around the world. At this time, the City is unable to determine what effect this may have on its future financial condition and operations.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

GOVERNMENTAL FUNDS

<u>GENERAL FUND</u> - The General Fund accounts for resources devoted to financing the general services. These include general government, economic development, parks and recreation, public safety, public service, and public works. Revenues are recorded by source, i.e., taxes, license and permit, intergovernmental, service charges, fines and forfeitures, etc. General Fund expenditures are primarily for day-to-day operating costs and equipment. This fund accounts for all financial transactions not properly accounted for in another fund.

SPECIAL REVENUE FUNDS

Special revenue funds are established to account for taxes and other revenues set aside for a particular purpose.

<u>Transit System Fund</u> - Revenues from Minnesota Vehicle Excise Tax and fares, and expenditures for the Plymouth Metrolink system are accounted for in this fund.

CAPITAL PROJECT FUNDS

Capital projects funds are used to account for the construction and financing of large capital projects.

<u>General Capital Projects Fund</u> - This fund is used to account for construction costs related to the City's buildings and park improvements.

<u>Improvement Projects Fund</u> - This fund is used to account for expenditures incurred in the construction of certain public improvements such as residential streets, sidewalks, and storm sewers.

<u>Street Replacement Fund</u> - This fund is used to account for accumulation of resources for major infrastructure repair and replacement. The major source of revenue is property taxes.

CITY OF PLYMOUTH, MINNESOTA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION DECEMBER 31, 2019

| FUN | D BALANCE - TOTAL GOVERNMENTAL FUNDS | | \$ 70,466,011 |
|-----|---|---------------|------------------|
| Amo | unts reported for governmental activities in the statement of net position are different because: | | |
| 1. | Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund statements. | | |
| | Capital assets | 476,461,589 | |
| | Accumulated depreciation | (260,464,993) | 215,996,596 |
| 2. | Long-term liabilities are not due and payable in the current period and, therefore, are not | | |
| | reported in the fund statements. | | |
| | Bonds payable | (8,270,000) | |
| | Premium / discount on bonds | (233,166) | |
| | Accrued interest payable | (98,877) | (8,602,043) |
| 3. | Unavailable revenue in governmental funds is susceptible to full accrual on | | |
| | government-wide statements. | | 17,004,048 |
| 4. | Internal service funds are used to charge the costs of fleet and building management, | | |
| | management information systems, employee benefits, and other items to individual funds. | | |
| | The assets, deferred outflows/inflows, and liabilities (including capital assets) of the internal | | |
| | services funds are included in governmental activities in the statement of net position. | | 34,078,233 |
| 5. | Internal balances which are the result of the allocation of internal service fund | | |
| | operations to the business-type activities are eliminated on the statement of net | | |
| | position. | | 2,184,153 |
| 6. | The fire relief net pension asset and related pension plan deferments are not considered | | |
| | current financial resources, therefore are not reported in the fund statements. | | 4,091,929 |
| | | • | |

\$ 335,218,927

CITY OF PLYMOUTH, MINNESOTA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

YEAR ENDED DECEMBER 31, 2019

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS

(6,598,575)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement
of activities, the costs of those assets is allocated over their estimated useful lives
and reported as depreciation expense. This is the amount by which capital outlays exceeded
depreciation in the current period.

| Capital outlay | \$ 13,299,604 |
|---|---------------------------|
| Assets contributed by internal service funds | 51,588 |
| Assets contributed to internal service funds | (10,438,514) |
| Assets of governmental activities reassigned to proprietary funds | (5,302,807) |
| Depreciation expense | (12,421,544) (14,811,673) |
| | |

2. The net effect of various transactions involving capital assets (i.e. sales and dispositions) is to decrease net position.

(6,162)

3. Revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds.

13,474,488

4. The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on net position.

Principal repayments 1,050,000

5. Interest expense in the government-wide statement of activities differs from the amount reported in governmental funds because additional accrued interest was calculated for bonds payable, and additional expense was recognized on the amortization of bond discounts and premiums which are expended in the governmental fund statements.

| Accrued interest payable | 12,792 | |
|---|--------|--------|
| Amortization of bond premiums and discounts | 41,869 | 54,661 |

Capital assets contributed to the City by developers are not current financial resources, therefore are not reported in the governmental funds statements.

1,332,400

 Governmental funds report outlays of housing loans as expenditures while in the government-wide statement the disbursement increases notes receivable in the statement of net position and does not affect the statement of activities.

62,204

7. Governmental funds report outlays of business assistance loans as expenditures while in the government-wide statement the disbursement increases notes receivable in the statement of net position and does not affect the statement of activities.

10,000

8. Internal service funds are used to charge the cost certain activities, such as of insurance, fleet and building management, management information systems, employee benefits, and other items to individual funds. This amount represents the change in net position of the internal service funds, which are reported with governmental activities.

12,949,263

The net effect of transactions involving the fire relief pension plan increased net position, but are not reported in the governmental funds. 283,820

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES

\$ 7,800,426

PROPRIETARY FUNDS

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs are to be recovered primarily through user charges.

<u>Water Sewer Utility Fund</u> - The Water Sewer Utility Fund provides municipal water and sanitary sewer service to the community. The Fund finances the operations, maintenance and construction of the water and sanitary sewer systems.

<u>Ice Center Fund</u> - The Ice Center Fund provides ice arena facility services to the community through hockey, figure skating and public skating programs.

<u>Water Resources Fund</u> - This fund is used to account for resources used to administer the City's surface water plan, erosion control, wetland regulations, and environmental programs including planning, projects, and maintenance.

NOTES TO FINANCIAL STATEMENTS

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Plymouth, Minnesota (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to governmental units by the Governmental Accounting Standards Board (GASB). The City's significant accounting policies are described below.

A. FINANCIAL REPORTING ENTITY

The City of Plymouth, Minnesota (the City) was formed and operates pursuant to applicable Minnesota laws and statutes. On January 1, 1993, the City adopted a home rule charter and operates under a council-manager form of government. The council is composed of a mayor, four ward council members, and two at-large council members.

As required by accounting principles generally accepted in the United States of America (generally accepted accounting principles), these financial statements present the City of Plymouth (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of its operational or financial relationship with the City.

Blended Component Units

The City created the Economic Development Authority (EDA) in 2016. The EDA did not have financial activity during the year.

Discretely Presented Component Units

The component unit columns in the government-wide statements include the financial data of the City's discretely presented component unit. It is reported in a separate column to emphasize that it is legally separate from the City.

The Housing and Redevelopment Authority (HRA) of Plymouth is a separate legal entity governed by a board, which is appointed by the City Council. The Council reviews and approves the HRA tax levies and budgets, and the City provides major community development financing for HRA activities. Debt issued for HRA activities are City general obligation debt issues. The HRA is established to provide housing and redevelopment assistance to the City's citizens and to carry out certain housing and redevelopment projects and programs using City employees, which enables the City to meet federal and state housing requirements. The HRA provides assistance through general taxes and administers the City's Community Development Block Grant program.

The HRA operates the Section 8 rental subsidy program as a direct recipient from the Department of Housing and Urban Development. The HRA operates Plymouth Towne Square, a 99-unit senior independent living community for moderate and low-income Plymouth citizens. In addition, the HRA operates Vicksburg Crossing, a 96-unit senior independent community of which a portion of the units are available for moderate and low-income Plymouth citizens, and the remainder are market rate. Rental subsidies are made to tenants by a portion of the HRA property tax levy.

As the City appoints the HRA commission and has the ability to hire or dismiss those persons responsible for its day-to-day operations, the HRA is considered a component unit of the City.

The HRA does not publish separate financial statements. The financial statements are included in this report.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component units.

Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The government-wide Statement of Activities reflect the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, service, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separated columns in the fund financial statements. Each financial presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented using a measurement focus and basis of accounting different from that used in the government-wide statements' governmental column, a reconciliation is presented that briefly explains the adjustments necessary to reconcile ending net position and the change in net position.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Major Governmental Funds – The City reports the following major governmental funds:

- General Fund The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. This fund records revenues such as property tax revenues, licenses and permits, fines and penalties, intergovernmental revenues, and investment earnings. Most of the current day-to-day operations of the governmental units are financed from this fund.
- Special Revenue Fund
 - Transit System Fund Revenues from the Minnesota Vehicle Excise Tax and fares, and expenditures for the Plymouth Metrolink system are accounted for in this fund.
- Capital Project Funds
 - General Capital Projects Fund Used to account for construction costs related to the City's buildings and park improvements.
 - o *Improvement Projects Fund* Used to account for expenditures incurred in the construction of certain public improvements such as residential streets, sidewalks, and storm sewers.
 - o Street Replacement Fund Used to account for accumulation of resources for major infrastructure repair and replacement. The major source of revenue is property taxes.

<u>Major Proprietary Funds</u> – The City reports the following major proprietary funds:

- Water Sewer Utility Fund Used to account for providing water and sewer services to the City's residents.
- *Ice Center Fund* Used to account for the operations of the City's ice center.
- Water Resources Fund Used to account for administering the City's surface water plan, erosion control, wetland regulations and environmental programs.

Other Funds – The City reports the following other funds:

• *Internal Service Funds* - Used to account for central equipment, public facilities, information technology, risk management, employee benefits, and resource planning services provided to other departments of the City on a cost-reimbursement basis.

The accounting and reporting treatment applied to a fund is determined by its measurement focus.

Governmental Funds:

• *Measurement Focus* - Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources (if any), current liabilities, and deferred inflows of resources generally are included on the balance sheet. Reported fund balance is considered a measure of "available spendable resources". Governmental fund operating statements represent increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current position.

- Basis of Accounting Governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.
- Revenues Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers property taxes, including delinquent taxes received within 60 days after year-end to be available. Licenses and permits, fines and forfeitures, intergovernmental revenues, charges for services, and investment earnings are considered to be available if they are collected within 60 days. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received.
- *Unavailable Revenues* unavailable revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when all revenue recognition criteria are met, the liability for unavailable revenue is removed and revenue is recognized.
- Expenditures Expenditures generally are recorded when a liability is incurred, defined as accrual accounting. However, debt service expenditures, as well as other long-term liabilities, are recorded only when payment is due.

Proprietary Funds:

- *Measurement Focus* Proprietary funds are accounted for on a flow of economic resources measurement focus. This means that all assets, including capital assets, and all liabilities, including long-term liabilities and deferred outflows/inflows, associated with fund activity are included on the balance sheets. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.
- Basis of Accounting Proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recorded at the time liabilities are incurred. Unbilled utility service receivables are recorded at year-end.
- Operating versus Non-operating Items Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments of other charges between the City's water sewer utility function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported from the various functions concerned.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. ASSETS, LIABILITIES, DEFERRED INFLOWS/OUTFLOWS OF RESOURCES, AND NET POSITION, OR EQUITY

1. Cash and Investments

Deposits and Investments

The cash balances of the City and its component unit funds are pooled and invested for the purpose of increasing earnings through investment activities. The pool's investments are reported at fair value at year end, based on market prices. The City has the ability and intent to hold its investments to maturity. The individual funds' portions of the pool's fair value are presented as "Cash and investments". Earnings from such investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quotes prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 3 for the City's recurring fair value measurements as of year-end.

Cash and Cash Equivalents

The City considers cash and cash equivalents in proprietary funds to be cash on hand and demand deposits. In addition, because the pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is also deemed to be a cash equivalent.

2. Receivables and Payables

During the course of operations, transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet and are short-term in nature. Advances to other funds and advances from other funds are considered long-term receivables/payables. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

The City Council annually adopts a tax levy and certifies it to the County in December (levy/assessment date) of each year for collection in the following year. The County is responsible for billing and collecting all property taxes for itself, the City, the local School District, and other taxing authorities. Such taxes become a lien on January 1 and are recorded as receivables by the City. The City has no ability to enforce payment of property taxes by property owners. The County possesses this authority. The County spreads all levies over taxable property.

Within the governmental fund financial statements, property taxes are accrued and recognized as revenue, excluding delinquent taxes received over 60 days after year-end. Taxes that remain unpaid are classified as delinquent taxes receivable and are fully offset by unavailable revenue, because they are not known to be available to finance current expenditures. An allowance for abated taxes has been recorded as a reduction in property tax revenue and unavailable revenue. Unavailable revenue in governmental activities is susceptible to full accrual on the government-wide statements. Real property taxes may be paid by taxpayers in two equal installments, on May 15 and October 15. Personal property taxes may be paid on May 15. The county provides tax settlements to cities and other taxing districts four times a year, in June, July, December, and January of the following year.

Special Assessments are levied against benefited properties for the cost, or a portion of the cost, of special assessment improvement projects in accordance with Minnesota Statutes. These assessments are collectible by the City over a term of years. Collection of annual installments (including interest) is handled by the County Auditor in the same manner as property taxes. Property owners are allowed to prepay future installments without interest or prepayment penalties.

Within the governmental fund financial statements, special assessment principal installments are recognized as revenue when they become measurable and available. Special assessment interest revenues are recognized when due, net of delinquencies. Unavailable revenue in governmental activities is susceptible to full accrual on the government-wide statements.

Trade receivables include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables account for the majority of these receivables. The City annually certifies delinquent water and sewer accounts to the County for collection in the following year. Therefore, there has been no allowance for doubtful accounts established.

The City and the HRA, in efforts to further develop the community, lend funds to certain developers for specific projects and to homeowners for first-time home buyer purchases as notes receivable. The disbursement under the notes are recorded as current expenditures. The note receivable is also recorded with a corresponding unavailable revenue amount. As the notes are repaid, the repayments are recorded as current revenue, and the notes receivable and unavailable revenue amounts are reduced accordingly. Unavailable revenue in governmental activities is susceptible to full accrual on the government-wide statements. The notes receivable of the City and HRA have a balance of \$3,079,712. These notes have interest rates ranging from 1.0% to 6.0%.

As part of the rehabilitation program, interest-free loans are given to low and moderate-income households to maintain, repair, and improve their homes. The loan disbursements are recorded as current expenditures. Payments are deferred and loans are forgiven after 20 years if the homeowner continues to own and occupy the home. The HRA does not recognize notes receivable and corresponding unavailable revenue on these loans. If the property is sold within 20 years, the loan is required to be repaid and is recorded as current revenue.

Receivables not expected to be collected within one year are notes receivable of \$2,003,532, interest on notes receivable of \$164,531 and special assessments receivable of \$2,984,002.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of inventory is recorded as an expenditure when consumed (i.e., consumption method) in the Governmental Fund types.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than purchased.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets through back-trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Land and construction in progress are not depreciated. Property, plant, and equipment of the primary government, as well as the component unit, is depreciated using the straight line method over the following estimated useful lives:

| Assets | <u>Years</u> |
|-----------------------------------|--------------|
| Buildings | 5 - 50 |
| Improvements other than buildings | 10 - 25 |
| Machinery and equipment | 2 - 20 |
| Infrastructure | 15 - 100 |

Major outlays for capital assets and improvements are capitalized as projects are constructed.

5. Compensated Absences

Employees accrue *vacation/annual leave* at increments based on years of service. Such pay is reflected as a liability in the employee benefit fund as well as the government-wide statement of net position. The related expenditures/expenses are reflected on the fund statements based on each employees' distribution. The City compensates all employees upon termination for unused leave up to a maximum of 480 hours.

Employees accrue *extended illness leave* up to a maximum lifetime accrual of 600 hours. They are entitled to draw upon their banks for approved leave extending beyond three weeks in duration. This type of leave is expended/expensed as it is paid from all funds. Employees are not compensated upon termination for remaining balances.

6. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources and discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

7. Interfund Activity

Interfund services provided and used are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions are reported as transfers.

8. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, the statement of financial position will sometimes report a separate section for deferred outflows or inflows of resources. These separate financial elements represent a consumption or acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of resources (revenue) until then.

The City reports deferred outflows and inflows of resources related to pensions and other post-employment benefits (OPEB) in the government-wide and enterprise funds Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, differences between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

Unavailable revenue from property taxes, special assessments, and notes receivables arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

9. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- Nonspendable Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- Committed Consists of amounts that can be used only for specific purposes determined by a formal action of
 the government's high level of decision-making authority. The Council is the highest level of decision-making
 authority for the City that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance.
 Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken to remove
 or revise the limitation.
- Assigned Consists of internally imposed constraints. These constraints consist of amounts intended to be used
 for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental
 funds, assigned amounts represent intended uses established by the governing body itself or by an official to
 which the governing body delegates the authority. Pursuant to Council Resolution, the City Manager,
 Administrative Services Director, or Finance Manager are authorized to establish assignments of fund balance.
- Unassigned The residual classification for the General Fund which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, then use unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use, it is the City's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

10. Statewide Pension Plans

For purposes of measuring the net pension liability/asset, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the applicable pension and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the plan except that the Public Employees Retirement Association's (PERA) fiscal year-end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The PERA has a special funding situation created by a direct aid contribution made by the state of Minnesota. The direct aid is a result of the merger of the Minneapolis Employees Retirement Fund into the PERA on January 1, 2015.

11. Use of Estimates

The preparation of financial statements, in accordance with accounting principles generally accepted in the United States of America, requires management to make estimates that affect amounts reported in the financial statements during the reporting period. Actual results could differ from such estimates.

12. Comparative Data/Reclassifications

Comparative total information for the prior year has been presented only for the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year have been reclassified in order to be consistent with the current year's presentation.

13. Net Position

Net position represent the difference between assets plus deferred outflows of resources and deferred inflows of resources plus liabilities. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.
- b. Restricted net position Net position whose use is limited by external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- c. Unrestricted net position All other net position that does not meet the definition of "net investment in capital assets" or "restricted".

Note 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETS AND BUDGETARY ACCOUNTING

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General and certain Special Revenue Funds.

Budgeted amounts are as originally adopted, or as amended by the City Council. All budgetary amendments and transfers require approval of the City Council. Budgeted expenditure appropriations lapse at year-end.

Encumbrance accounting is employed in Governmental Funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as assignments of fund balances and do not constitute expenditures or liabilities because the resources will be reappropriated and honored during the subsequent year.

<u>Legal Compliance – Budgets</u>

The City follows the procedures below in establishing the budgetary data reflected in the enclosed financial statements:

- 1. The City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is held to obtain taxpayer comments.
- 3. The budget is legally enacted through passage of a resolution.
- 4. The City Council may authorize transfers of budgeted amounts between city funds.
- 5. The City legally adopts budgets and formal budgetary integration is employed as a management control device during the year for the General Fund and certain Special Revenue Funds (Recreation Fund, Community Development Block Grant Fund, and Transit System Fund).
 - Formal budgetary integration is not employed for Debt Service Funds because effective budgetary control is alternatively achieved through bond indenture provisions, or for Capital Projects Funds because budgetary control is alternatively achieved through the use of project controls.
- 6. The legal level of budgetary control is at the fund level. Monitoring of budgets is maintained at the expenditure category level (i.e., salaries, wages, and benefits; material, supplies, and services; capital outlay) within each activity. This means that General Fund and certain Special Revenue Fund individual line items may overspend budgeted amounts without council approval as long as the actual fund expenditures do not exceed the total fund budget.

B. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Expenditures exceeded appropriations in the General Fund by \$234,890, the Recreation Special Revenue Fund by \$72,302, and the Community Development Block Grant Special Revenue Fund by \$65,517. These variances were financed with revenues in excess of budget and fund balance reserves.

C. DEFICIT FUND EQUITY

The following funds had a deficit fund equity as of December 31, 2019. The Improvement Projects fund deficit will be eliminated with recognition of contributions on joint projects. The Employee Benefits fund deficit will remain until which time the net pension liability is fully funded. Vicksburg Crossing's deficit will be eliminated over time as the occupancy rate increases and debt service obligations and depreciation decrease.

| <u>Fund</u> | Fund Equity |
|-------------------------------------|--------------|
| Improvement Projects | (10,226,645) |
| Employee Benefits | (23,903,788) |
| Component Unit - Vicksburg Crossing | (609,020) |

Note 3: CASH AND INVESTMENTS

A. COMPONENTS OF CASH AND INVESTMENTS

Cash and investments at year-end consist of the following:

| | Primary | Component | | |
|--------------|-------------------|-------------|-----------|-------------------|
| | Government | <u>Unit</u> | | <u>Total</u> |

B. DEPOSITS

In accordance with applicable Minnesota Statutes, the City and its component unit maintain deposits at depository banks authorized by the City Council, including checking and savings accounts.

The following is considered the most significant risk associated with deposits:

Custodial credit risk – In the case of deposits, this is the risk that in the event of a bank failure, the deposits may be lost.

Minnesota Statutes require that all city deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The City has no additional deposit policies addressing custodial credit risk for deposits.

At year-end, the carrying amount of the City's deposits was \$108,953 while the balance on the bank records was \$110,635. The carrying amount of the component unit's deposits was \$140,927 while the balance on the bank records was \$140,927. At December 31, 2019, all deposits were fully covered by federal depository insurance or by collateral held by the City's agent in the City's name.

Note 3: CASH AND INVESTMENTS – CONTINUED

C. INVESTMENTS

The City is authorized by Minnesota Statute Chapter 118A, and the City's investment policy, to invest in the following:

- 1. Bonds, notes, bills, mortgages (excluding high-risk mortgage-backed securities), and other securities, which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by Congress.
- 2. State and local securities that consist of the following:
 - any security which is a general obligation of any state or local government with taxing powers which is rated "A" or better by a national bond rating agency;
 - any security which is a revenue obligation of any state or local government with taxing powers which is rated "AA" or better by a national bond rating agency; or
- 3. Commercial paper, with a maturity of 270 days or less, issued by United States corporations or their Canadian subsidiaries that is rated highest tier by at least two nationally recognized rating agencies, and is not rated less than highest tier by any nationally recognized rating agency.
- 4. Repurchase agreements with qualified institutions backed by collateral consisting of the foregoing.
- 5. Securities lending agreements with qualified financial institutions.
- 6. Banker's acceptances of United States banks that are eligible for purchase by the Federal Reserve System.
- 7. Money market mutual funds meeting the conditions of the Securities and Exchange Commission and is rated in one of the two highest rating categories for money market funds by at least one nationally recognized rating organization.

The City and its component unit have the following cash and investment balances at year end:

| | Fair Value | Interest Risk - Maturity in Years | | | | | | | |
|-----------------------------------|-------------|-----------------------------------|------------|-----------|-----|----|------------|-----------------|-------------------|

| Change funds | | | | | | | | | 8,959 |
| Cash and investments | | | | | | | | | \$ 148,814,515 |

Note 3: CASH AND INVESTMENTS – CONTINUED

The investments are potentially subject to various risks; the following of which are considered the most significant:

Custodial credit risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy addresses this risk by requiring that securities be held by a third-party custodian. The City does not have a custodial credit risk because all investments are held in the City's name.

Credit risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. This risk is addressed by confining investments to those securities specifically authorized by state statutes and the City's investment policy. It is the City's policy to limit its investments in the authorized investment types to those rated in the top rating tiers issued by nationally recognized statistical rating organizations. As of December 31, 2019, the City's investments in US agency securities were rated AA+ or better by Standard & Poor's and/or Aaa or better by Moody's Investors Service, municipal bonds were rated AA+ or higher by Standard & Poor's and P1 by Moody's Investor Service and the City's commercial paper investments were rated A-1+ by Standard & Poor's and P1 by Moody's Investors Service. Nonnegotiable CD's and US government securities held by the City are not rated.

Concentration risk – This is the risk associated with investing a significant portion of the City's investments (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as Treasuries), investment pools, and mutual funds. It is the City's policy to limit its investment in commercial paper to no more than 20% of the total portfolio. The City's holdings at year end were 15.9%. At year end, the City's investments in five U.S. Agency issuers did exceed 5% of the total portfolio. These issuers were the Federal Farm Credit Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and FNMA Pass Through Pool. These issuers have an implicit guarantee from the federal government but are not backed by the full faith and credit of the federal government.

Interest rate risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The City does have an investment policy which requires diversification in terms of maturity and limits the maximum maturity of an investment to 15 years. At year end, the City had 29.7% of investments with a maturity date within one year, 46.1% with a maturity date between one and five years, 23.2% with a maturity date between six and ten years, and 1.0% with a maturity date between eleven and fifteen years.

Note 4: CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2019 was as follows:

Note 5: LONG-TERM DEBT

A. GENERAL OBLIGATION BONDS

Primary government

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for governmental activities.

Component unit

The HRA issues general obligation bonds to provide funds for the acquisition and construction of capital facilities.

B. GENERAL OBLIGATION WATER REVENUE BONDS

General Obligation Revenue Bonds

The City issues bonds that are general obligations of the City for which the City pledges its full faith and credit and power to levy taxes. In addition, the City pledges net revenues of its water utility.

C. CAPITAL LEASES

The City has two capital leases outstanding at year-end for information technology equipment. The leases have a 5-year term, bear no interest and have a final maturity in 2023. The capital leases will be repaid by the Information Technology Fund. The gross amount of capital assets and accumulated depreciation recorded related to the capital leases was \$210,952 and \$27,589, respectively. Net book value of \$183,363 is recorded as part of machinery and equipment.

Note 5: LONG-TERM DEBT – CONTINUED

D. OBLIGATIONS OUTSTANDING

Long-term obligations outstanding at December 31, 2019 are summarized as follows:

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, capital leases, compensated absences, total OPEB and net pension liability, which are reported in the internal service funds, are included in the above amounts. Also, for the governmental activities, capital leases, compensated absences, total OPEB and net pension liability are generally liquidated by the general fund.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. If revenues are not adequate to retire outstanding debt, the City's full faith and credit are pledged for their redemption.

There are a number of financial limitations and restrictions contained in the various bond indentures. At December 31, 2019, the City is in compliance with all significant financial limitations and restrictions and has no federal arbitrage payable.

Note 5: LONG-TERM DEBT – CONTINUED

F. PLEDGED REVENUE

The following table reflects bonds in which revenue is pledged to meet the debt obligations required.

| | | | Revenue Pledg | ed | | Cur | rent Year |
|--|--|----------------------------------|---------------|--|-------------------------------|--------------------------|------------|
| | | | Percent of | | Remaining | Principal | Pledged |
| | Use of | | Total | Term of | Principal | and Interest | Revenue |
| Bond Issue | Proceeds | Type | Debt Service | Pledge | and Interest | Paid | Received |
| Tax Increment Refunding Bonds - 2009A | Site Improvements within Housing District | Tax Increment | 100% | 2010-until debt obligations are paid in full | \$ 1,142,962 | \$ 261,125 | \$ 201,012 |
| Governmental Housing Refunding Bonds - 2011A Governmental Housing Refunding Bonds - 2012A | Governmental Housing Project Senior Housing Project | Rental Revenue Rental Revenue | 100% 100% | 2011-2023 2015-2035 | \$ 1,386,150 \$ 10,534,013 | \$ 343,238 \$ 662,950 | , ,,,,, |

Note 6: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of December 31, 2019, is as follows:

Due from other funds and due to other funds are short-term receivables/payables within the financial statements and are due to short-term cash deficits and utility charges.

| Receivable Fund | Payable Fund | Amount |
|---------------------|------------------------|-----------------|
| General | Nonmajor Governmental | \$ 10,360 |
| Street Replacement | Improvement Projects | 8,936,690 |
| Water Sewer Utility | General | 5,028 |
| Water Sewer Utility | Transit System | 1,127 |
| Water Sewer Utility | Ice Center | 2,544 |
| Water Sewer Utility | Internal Service Funds | 1,550 |
| Water Resources | General | 1,117 |
| Water Resources | Water Sewer Utility | 491 |
| Water Resources | Ice Center | 1,073 |
| Water Resources | Internal Service Funds | 675 |
| Nonmajor Enterprise | General | 8 |
| | | \$ 8,960,663 |

Note 6: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS - CONTINUED

Advances to other funds and advances from other funds represent interfund borrowing to provide interim financing for construction projects or other purposes. Such loans bear interest at the rate of 1.5% to 4.0%.

| Receivable Fund | Payable Fund | <u>Amount</u> |
|--------------------------|-----------------------|-----------------|
| General Capital Projects | Nonmajor Governmental | \$ 398,014 |
| Nonmajor Governmental | Nonmajor Governmental | 233,793 |
| Nonmajor Governmental | Ice Center | 596,688 |
| | | \$ 1,228,495 |

The purpose of transfers are to provide funding for capital improvement projects and capital outlay, provide funding for operating purposes, return unused funds, and other miscellaneous items.

Note 7: CONTINGENCIES AND COMMITMENTS

Federal and State Funding

Amounts recorded or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of claims which may be disallowed by the grantor agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

General Litigation

In the opinion of management, there are no potential claims against the City which would materially affect the financial statements of the City.

Tax Increment Districts

The City's tax increment districts are subject to review by the Minnesota Office of the State Auditor (OSA). Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements.

Conduit Debt Obligations

From time to time, the City has issued Industrial Revenue, Housing Revenue, and Health Facilities Revenue Bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial, commercial, housing, and health facilities deemed to be in the public's interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2019, there were 12 series of Industrial Revenue, Housing Revenue, and Health Revenue Bonds outstanding with an aggregate principal amount payable of approximately \$37.7 million.

Encumbrances

The encumbrances summarized below have been reported as assigned fund balance within the General Fund as of December 31, 2019. The purchase orders remain open for future services related to active construction projects.

| | General |
|-----------------------------|---------------|
| | |
| Repair and maintenance (PO) | \$ 121,973 |
| Supplies and services (PO) | 11,033 |
| Total | \$ 133,006 |

Note 8: TAX ABATEMENT AGREEMENTS

The City, in order to spur economic development and redevelopment will enter into private development and redevelopment agreements to encourage a developer to construct, expand, or improve new or existing properties and buildings or clean-up and redevelop blighted areas. These agreements may in substance be a tax abatement but will depend on their individual circumstances.

The City is authorized to create a tax increment financing plan under Minnesota Statute, Chapter 469.175. The criteria that must be met under the statute are that, in the opinion of the municipality:

- The proposed development or redevelopment would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future;
- The increased market value of the site that could reasonably be expected to occur without the use of tax increment financing would be less than the increase in the market value estimated to result from the proposed development after subtracting the present value of the projected tax increments for the maximum duration of the district permitted by the plan. The requirements of this item do not apply if the district is a housing district;
- The tax increment financing plan conforms to the general plan for the development or redevelopment of the municipality as a whole; and
- The tax increment financing plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the development or redevelopment of the project by private enterprise.

The City has development agreements with private developers for properties within the City's Tax Increment Districts. As part of the agreements, the City has agreed to reimburse the developers for certain costs through pay-as-you-go tax increment notes. The notes provide for the payment of principal equal to the developers' costs, plus interest at rates ranging from 5.0% to 8.5%. Payments of the notes will be made at the lesser of the scheduled note payments or the accrual net tax increment received during the period specified in the agreement. Each note will be cancelled at the end of the agreement term, whether it has been fully repaid or not. The accumulated outstanding principal balance of these notes as of December 31, 2019 is \$3,098,684. These notes are not included in the City's long-term debt, because repayment is required only to the extent sufficient tax increments are received. The City's position is that this is an obligation to assign future and uncertain revenue sources and, as such, is not actual debt in substance.

The City currently has three agreements that would be considered a tax abatement under GASB Statement No. 77. For these agreements, the City used an economic development vehicle known as tax increment financing whereby tax increment revenue is generated on the incremental increase in value above a base value established on the date that the tax increment district is created.

The three agreements were to assist the developer with the financing of certain costs of a project constructed within the Development District and are as follows:

- In 2006, the City entered into a development agreement with Common Bond. The City will abate 95 percent of the incremental taxes received through execution of a tax increment revenue note to be retired in 2034. The outstanding principal balance as of December 31, 2019 was \$51,901 and the City rebated \$15,221 in the current year.
- In 2012, the City entered into a development agreement with KTJ 198, LLC. The City will abate 90 percent of the incremental taxes received through execution of a tax increment revenue note to be retired in 2034. The outstanding principal balance as of December 31, 2019 was \$863,491 and the City rebated \$140,466 in the current year.
- In 2015, the City entered into a development agreement with 169/55, LLC. The City will abate 90 percent of the incremental taxes received through execution of a tax increment revenue note to be retired in 2040. The outstanding principal balance as of December 31, 2019 was \$2,183,292 and the City rebated \$205,924 in the current year.

Note 9: RISK MANAGEMENT

The City is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City joined together with other cities throughout Minnesota to form the League of Minnesota Cities Insurance Trust (LMCIT), a public entity risk pool currently operating as a common risk management and insurance program for member cities as this is more economically justifiable than obtaining insurance on its own.

The City pays an annual premium to the LMCIT for its insurance coverage. The LMCIT is self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of reserved amounts for each insured event. The LMCIT allows for the pool to make additional assessments to make the pool self-sustaining. Current state statutes (Minnesota Statute subd. 466.04) provide limits of liability for the City. These limits are that the combination of defense expense and indemnification expense shall not exceed \$500,000 in the case of one claimant or \$1,500,000 for any number of claims arising out of a single occurrence.

The City has established an Internal Service Fund, called the Risk Management Fund, to account for the self-insurance programs. Fund revenues are primarily charges to other funds and investment earnings.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Coverage limits decreased based on a thorough review of covered property. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balances of workers compensation claims liabilities during the past two years ended December 31 are as follows:

| | <u>2018</u> | <u>2019</u> |
|--|---------------|---------------|
| Liability at beginning of year | \$ 252,529 | \$ 289,252 |
| Incurred claims and changes in estimates | 213,749 | 141,043 |
| Claims paid | (177,026) | (171,102) |
| Liability at end of year | \$ 289,252 | \$ 259,193 |

Changes in the balances of dental claims liabilities during the past two years ended December 31 are as follows:

| | <u>2018</u> | <u>2019</u> |
|--|--------------|--------------|
| Liability at beginning of year | \$ 56,617 | \$ 54,058 |
| Incurred claims and changes in estimates | 229,971 | 256,800 |
| Claims paid | (223,429) | (240,927) |
| Liability at end of year | \$ 54,058 | \$ 69,931 |

Note 10: RETIREMENT PLANS

<u>DEFINED BENEFIT PENSION PLANS – STATEWIDE</u>

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the PERA. PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

1. General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City are covered by the General Employees Retirement Fund (GERF). GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Public Employees Police and Fire Fund (PEPFF)

The Public Employees Police and Fire Fund (PEPFF), originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to the PERA.

B. Benefits Provided

The PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the State Legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. PEPFF Benefits

Benefits for PEPFF members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after 10 years of credited service. Benefits for PEPFF members first hired after June 30, 2014, vest on a prorated basis from 50 percent after 10 years up to 100 percent after 20 years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service. A full, unreduced pension is earned when members are age 55 and vested, or for members who were first hired prior to July 1, 1989, when age plus years of service equal at least 90.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

1. GERF Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in calendar year 2019. The City was required to contribute 7.50 percent for Coordinated Plan members in calendar year 2019. The City's contributions to the GERF for the year ended December 31, 2019 were \$1,051,185. The City's contributions were equal to the required contributions as set by state statute.

2. PEPFF Contributions

Police and fire member's contribution rates increased from 10.80 percent of pay to 11.30 percent and employer rates increased from 16.20 percent to 16.95 percent on January 1, 2019. The City's contributions to the PEPFF for the year ended December 31, 2019 were \$1,560,526 The City's contributions were equal to the required contributions as set by state statute.

D. Pension Costs

1. GERF Pension Costs

At December 31, 2019, the City reported a liability of \$10,742,410 for its proportionate share of the GERF's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the state's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$333,819. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2018 through June 30, 2019, relative to the total employer contributions received from all of the PERA's participating employers. The City's proportionate share was 0.1943 percent at the end of the measurement period and 0.1953 percent for the beginning of the period.

The amount recognized by the City as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of net pension liability \$ 10,742,410 State's proportionate share of the net pension liability associated with the City \$ 333,819

For the year ended December 31, 2019, the City recognized pension expense of \$1,345,881 for its proportionate share of the GERF's pension expense. In addition, the City recognized an additional \$25,000 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the GERF.

At December 31, 2019, the City reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Ι | Deferred | | Deferred |
|--|----|-----------|----|-------------|
| | C | Outflows | | Inflows |
| | of | Resources | 0 | f Resources |
| | | | | |
| Differences between expected and actual economic experience | \$ | 300,770 | \$ | _ |
| Changes in actuarial assumptions | | _ | | 854,844 |
| Differences between projected and actual investment earnings | | _ | | 1,108,315 |
| Changes in proportion | | 36,536 | | 146,940 |
| Contributions paid to the PERA subsequent to the measurement | | | | |
| date | | 531,268 | | |
| | | | | |
| Total | \$ | 868,574 | \$ | 2,110,099 |

Deferred outflows of resources reported \$531,268 related to pensions resulting from city contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending December 31, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| | Pension |
|--------------|-----------------|
| Year Ended | Expense |
| December 31, | Amount |
| | |
| 2020 | \$ (615,340) |
| 2021 | \$ (944,682) |
| 2022 | \$ (230,082) |
| 2023 | \$ 17.311 |

2. PEPFF Pension Costs

At December 31, 2019, the City reported a liability of \$8,901,130 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2018 through June 30, 2019, relative to the total employer contributions received from all of the PERA's participating employers. The City's proportionate share was 0.8361 percent at the end of the measurement period and 0.7896 percent at the beginning of the period.

For the year ended December 31, 2019, the City recognized pension expense of \$1,535,562 for its proportionate share of the PEPFF's pension expense. The City also recognized \$112,873 for the year ended December 31, 2019, as revenue and an offsetting reduction of net pension liability for its proportionate share of the state of Minnesota's onbehalf contributions to the PEPFF. Legislation passed in 2013 required the state of Minnesota to begin contributing \$9.0 million to the PEPFF each year until the plan is 90 percent funded or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later. In addition, the state will pay \$4.5 million on October 1, 2018 and October 1, 2019 in direct state aid. Thereafter, by October 1 each year, the state will pay \$9.0 million until full funding is reaches or July 1, 2048, whichever is earlier.

At December 31, 2019, the City reported its proportionate share of the PEPFF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | Deferred Outflows | | Deferred Inflows |
|--|----------|----------------------|----|---------------------|
| | 0 | f Resources | 0 | f Resources |
| Differences between expected and actual economic experience | \$ | 353,096 | \$ | 1,144,689 |
| Changes in actuarial assumptions | Ψ | 6,254,827 | Ψ | 8,863,217 |
| Differences between projected and actual investment earnings | | _ | | 1,730,512 |
| Changes in proportion | | 1,526,030 | | _ |
| Contributions paid to the PERA subsequent to the measurement | | | | |
| date | | 792,154 | | |
| Total | • | 8,926,107 | • | 11,738,418 |
| Total | <u> </u> | 0,720,107 | | 11,/30,410 |

Deferred outflows of resources reported \$792,154 related to pensions resulting from city contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending December 31, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| | Pension |
|--------------|-------------------|
| Year Ended | Expense |
| December 31, | Amount |
| | |
| 2020 | \$ (273,444) |
| 2021 | \$ (845,323) |
| 2022 | \$ (2,751,318) |
| 2023 | \$ 190,548 |
| 2024 | \$ 75,072 |

E. Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

| Inflation | 2.50% per year |
|------------------------------|----------------|
| Active member payroll growth | 3.25% per year |
| Investment rate of return | 7.50% |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP-2014 tables for all plans for males or females, as appropriate, with slight adjustments to fit the PERA's experience. Cost of living benefit increases for retirees are assumed to be: 1.25 percent per year for the GERF and 1.0 percent per year for the PEPFF.

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the GERF was completed in 2019. The most recent four-year experience study for the PEPFF was completed in 2016. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions and plan provisions occurred in 2019:

GERF – Changes in actuarial assumptions

• The mortality projection scale was changed from MP-2017 to MP-2018.

GERF – Changes in plan provisions

• The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

PEPFF – Changes in actuarial assumptions

• The mortality projection scale was changed from MP-2017 to MP-2018.

The Minnesota State Board of Investment, which manages the investments of the PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|----------------------|-------------------|--|
| Domestic stocks | 35.5 % | 5.10 % |
| Private markets | 25.0 | 5.90 |
| Fixed income | 20.0 | 0.75 |
| International equity | 17.5 | 5.90 |
| Cash equivalents | 2.0 | _ |
| Total | 100 % | |

F. Discount Rate

The discount rate used to measure the total pension liability in 2019 was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the GERF and the PEPFF were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following table presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

| | 1% Decrease in Discount Rate (6.5%) Discount Rate (7.5%) | | 1% Increase in Discount Rate (8.5%) | | |
|---|--|------------|---|-----------------|--|
| The City's proportionate share of the GERF net pension liability | \$ | 17,659,946 | \$ 10,742,410 | \$ 5,030,612 | |
| The City's proportionate share of the PEPFF net pension liability | \$ | 19,456,214 | \$ 8,901,130 | \$ 172,245 | |

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103; or by calling (651) 296-7460 or (800) 652-9026.

DEFINED CONTRIBUTION PLAN – STATEWIDE

Seven council members of the City of Plymouth are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by the PERA. The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5 percent of salary which is matched by the elected official's employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employee contributions must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, the PERA receives 2 percent of employer contributions and twenty-five hundredths of 1 percent (0.0025) of the assets in each member's account annually.

Total contributions made by the City during fiscal year 2019 were:

| For the | | | | | | | Required Rate |
|--------------|------------------------|-------------------|----|---------|-----------------|---------------|---------------|
| Year Ended | ed Contribution Amount | | | | Percentage of C | for Employees | |
| December 31, | Er | Employee Employer | | nployer | Employee | Employer | and Employers |
| | | | | | | | |
| 2019 | \$ | 4,027 | \$ | 4,027 | 5% | 5% | 5% |

PLYMOUTH FIREFIGHTERS' RELIEF ASSOCIATION RETIREMENT PLAN - SINGLE EMPLOYER

A. Plan Description

All members of the City of Plymouth Fire Department (the Department) are covered by a defined benefit plan administered by the Plymouth Firefighters' Relief Association (the Association). As of December 31, 2019, the plan covered 61 active firefighters and 24 vested terminated firefighters whose pension benefits are deferred. The plan is a single employer retirement plan and is established and administered in accordance with Minnesota Statute, Chapter 69.

The Association maintains a separate Special Fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (Chapter 261 as amended by Chapter 509 of Minnesota Statutes 1980). Funds are also derived from investment income.

B. Benefits Provided

A firefighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full service pension upon retirement.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed fewer than 20 years of service. The reduced pension, available to members with 10 years of service, shall be equal to 60 percent of the pension as described by the bylaws. This percentage increases 4 percent per year so that at 20 years of service, the full amount prescribed is paid. Members who retire with less than 20 years of service and have reached the age of 50 years and have completed at least 10 years of active membership are entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable non-forfeitable percentage of pension.

C. Contributions

Minnesota Statutes, Chapters 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings, and, if necessary, employer contributions as specified in Minnesota Statutes and voluntary city contributions (if applicable). The state of Minnesota contributed \$541,606 in fire state aid to the plan on behalf of the Department for the year ended December 31, 2019, which was recorded as a revenue. Required employer contributions are calculated on an actuarial basis annually based on statutory provisions. The City's statutorily-required contributions to the plan for the year ended December 31, 2019 were \$0. The City made no voluntary contributions to the plan. Furthermore, the firefighter has no obligation to contribute to the plan.

D. Pension Costs

At December 31, 2019, the City reported a net pension liability (asset) of (\$4,959,475) for the plan. The net pension liability (asset) was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability (asset) in accordance with GASB Statement No. 68 was determined by applying an actuarial formula to specific census data certified by the Department as of December 31, 2019.

The following table presents the changes in net pension liability (asset) during the year:

| | | Total Pension Liability (a) | | Plan Fiduciary Net Position (b) | | Net Pension Liability (Asset) (a-b) | |
|---------------------------------------|----|-----------------------------------|----|---------------------------------|----|---|--|
| Beginning balance – January 1, 2019 | \$ | 4,317,026 | \$ | 8,059,315 | \$ | (3,742,289) | |
| Changes for the year | | | | | | | |
| Service cost | | 269,531 | | _ | | 269,531 | |
| Interest on pension liability (asset) | | 318,580 | | _ | | 318,580 | |
| Differences between expected and | | | | | | | |
| actual experience | | (294,042) | | _ | | (294,042) | |
| Change in assumptions | | 113,653 | | | | 113,653 | |
| Change in benefit terms | | 309,551 | | _ | | 309,551 | |
| Contributions (state) | | _ | | 541,606 | | (541,606) | |
| Net investment income | | _ | | 1,419,811 | | (1,419,811) | |
| Benefit payments | | (70,828) | | (70,828) | | _ | |
| Administrative costs | | _ | | (26,958) | | 26,958 | |
| Total net changes | | 646,445 | | 1,863,631 | | (1,217,186) | |
| Ending balance – December 31, 2019 | \$ | 4,963,471 | \$ | 9,922,946 | \$ | (4,959,475) | |

For the year ended December 31, 2019, the City recognized pension revenue of \$541,606 and pension expense of \$257,786.

At December 31, 2019, the City reported deferred inflows of resources and deferred outflows of resources, related to pension from the following sources:

| | Ou | eferred atflows esources | Deferred Inflows of Resources | |
|--|----|--------------------------------|-------------------------------|-------------------|
| Difference between expected and actual liability Change in assumptions Net difference between projected and actual earnings on | \$ | - 99,007 | \$ | 509,924 68,597 |
| plan investments | | | | 388,032 |
| Total | \$ | 99,007 | \$ | 966,553 |

Amounts reported as deferred outflows/inflows of resources related to the plan will be recognized in pension expense as follows:

| 2020 | \$ (194,844) |
|------------|-----------------|
| 2021 | \$ (189,086) |
| 2022 | \$ (63,960) |
| 2023 | \$ (247,122) |
| 2024 | \$ (75,464) |
| Thereafter | \$ (97,070) |

E. Actuarial Assumptions

The total pension liability at December 31, 2019 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Retirement eligibility at 100 percent service pension at age 50 with 20 years of service, early vested retirement at age 50 with 10 years of service vested at 60 percent and increased by 4 percent for each additional year of service up to 20 and eligibility for deferred service pension payable at age 50 with 20 years of service

| Inflation rate | 2.50% per year |
|------------------------------|----------------|
| Investment rate of return | 6.50% |
| 20 year municipal bond yield | 2.75% |

The following changes in actuarial assumptions occurred in 2019:

- The expected investment return and discount rate decreased from 7.00% to 6.50% to reflect updated capital market assumptions.
- The mortality assumption was updated from the rates used in the July 1, 2017 Minnesota PERA Police and Fire Plan actuarial valuations to the rates used in the July 1, 2019 Minnesota PERA Police and Fire Plan actuarial valuation.
- Deferred members terminating after May 17, 1028 have the option of an income earning benefit on the amount of their accrued lump sum pension. We have assumed a 3% rate of return.
- The inflation assumption decreased from 2.75% to 2.50%

The following changes in plan provisions occurred in 2019:

• The lump sum benefit amount increased from \$10,000 to \$10,500. Deferred members terminating after May 17, 2018 have the option of an income earning benefit on the amount of their accrued lump sum pension. The reduction in the lump sum pension was changed from 4% per year for less than 20 years of service to 12% per year for less than 10 years of service.

The 6.5 percent long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan's target investment allocation along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | Long-Term |
|------------------------------|------------|----------------|
| | Target | Expected Real |
| Asset Class | Allocation | Rate of Return |
| | | |
| Domestic equity | 50.00 % | 7.26 % |
| International equity | 10.00 | 7.91 |
| Fixed income | 35.00 | 4.51 |
| Real estate and alternatives | 5.00 | 7.03 |
| Cash and equivalents | 0.00 | 3.24 |
| | | |
| Total | 100.00 % | 6.50 % |

F. Discount Rate

The discount rate used to measure the total pension liability was 6.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions to the plan will be made as specified in statute. Based on that assumption and considering the funding ratio of the plan, the fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability (Asset) Sensitivity

The following presents the City's net pension liability (asset) for the plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate 1 percent lower or 1 percent higher than the current discount rate:

| | | 1 Percent | | | | 1 Percent | |
|-------------------------------|------------------|-------------|----|-----------------|----|------------------|--|
| | Decrease (5.50%) | | Cu | Current (6.50%) | | Increase (7.50%) | |
| Net pension liability (asset) | \$ | (4,760,417) | \$ | (4,959,475) | \$ | (5,149,151) | |

H. Pension Plan Fiduciary Net Position

The Association issues a publicly available financial report. This report may be obtained by writing to the Plymouth Firefighters' Relief Association, P.O. Box 47101, 3400 Plymouth Blvd., Plymouth, MN 55447.

Note 11: OTHER POSTEMPLOYMENT BENEFITS PLAN

A. Plan Description

The City provides post-employment insurance benefits to certain eligible employees through its OPEB Plan, a single-employer defined benefit plan administered by the City. All post-employment benefits are based on contractual agreements with employee groups. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report. No plan assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

B. Benefits Provided

All retirees of the City have the option under state law to continue their medical insurance coverage through the City from the time of retirement until the employee reaches the age of eligibility for Medicare. For members of all employee groups, the retiree must pay the full premium to continue coverage for medical and dental insurance. Per state statutes, the City is also required to contribute towards the cost of continued health insurance coverage for officers and firefighters disabled or killed in the line of duty.

The City is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, whether the premiums are paid by the City or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the City's younger and statistically healthier active employees.

Note 11: OTHER POSTEMPLOYMENT BENEFITS PLAN – CONTINUED

C. Contributions

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the City. The City's current year required pay-as-you-go contributions to finance the benefits described in the previous section totaled \$129,189.

D. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

| Retirees and beneficiaries receiving benefits | 18 |
|---|-----|
| Active plan members | 260 |
| | |
| Total members | 278 |

E. Total OPEB Liability of the City

The City's total OPEB liability of \$2,791,575 as of year-end was measured as of January 1, 2019, and was determined by an actuarial valuation as of January 1, 2019.

F. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of January 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Discount rate | 3.80% |
|------------------------------|-------|
| 20-year municipal bond yield | 3.80% |
| Inflation rate | 2.50% |
| Salary increases | 3.00% |
| | |

Medical trend rate 6.50% grading to 5.00% over 6 years

The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota city employees. The state pension plans base their assumptions on periodic experience studies. Economic assumptions are based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information as well as for consistency with the other economic assumptions.

Since the plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield rate of 3.80 percent, which was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds as of the measurement date.

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2018 Generational Improvement Scale (with Blue Collar adjustment for Police and Fire Personnel).

The following changes in actuarial assumptions occurred in 2019:

- The health care trend rates were changed to better anticipate short term and long term medical increases
- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvements Scale (with Blue Collar adjustment for Police and Fire Personnel).
- The retirement and withdrawal tables for Police and Fire Personnel were updated.
- The discount rate was changed from 3.30% to 3.80%

Note 11: OTHER POSTEMPLOYMENT BENEFITS PLAN - CONTINUED

G. Changes in the Total OPEB Liability

| | T | otal OPEB Liability |
|----------------------------------|----|------------------------|
| Beginning balance | \$ | 3,119,544 |
| Changes for the year | | |
| Service cost | | 152,104 |
| Interest | | 105,995 |
| Changes in assumptions | | (95,237) |
| Differences between expected and | | |
| actual experience | | (370,513) |
| Benefit payments | | (120,318) |
| Total net changes | | (327,969) |
| Ending balance | \$ | 2,791,575 |

H. Total OPEB Liability Sensitivity to Discount and Health-Care Cost Trend Rate Changes

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

| | 1% Decrease in Discount Rate | Discount Rate | | 1% Increase in Discount Rate | | |
|----------------------|------------------------------|-------------------|----|------------------------------|--|--|
| OPEB discount rate | 2.80% | 3.80% | | 4.80% | | |
| Total OPEB liability | \$ 3,011,474 | \$ 2,791,575 | \$ | 2,587,277 | | |

The following presents the net OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

| | 1% | Decrease in | | | 1% | Increase in |
|-------------------------|---|--|----|--|----------------------|----------------------------------|
| | Healthcare Trend Healthcare Trend Rate Rate | | | Heal | thcare Trend Rate | |
| OPEB medical trend rate | | 5.50% decreasing to 4.00% over 6 years | | 6.50% decreasing to 5.00% over 6 years | | % decreasing to 10% over 6 years |
| Total OPEB liability | \$ | 2,518,405 | \$ | 2,791,575 | \$ | 3,110,517 |

Note 11: OTHER POSTEMPLOYMENT BENEFITS PLAN - CONTINUED

I. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the City recognized OPEB expense of \$199,879. As of year-end, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | _ | Deferred Outflows | | Deferred Inflows | | |
|---|----|----------------------|----|------------------------|--|-----------|
| | of | of Resources | | of Resources of Res | | Resources |
| City's contributions subsequent to the measurement date Gain on net OPEB liability Changes in assumptions | \$ | 129,189 - - | \$ | - 324,198 83,332 | | |
| | \$ | 129,189 | \$ | 407,530 | | |

A total of \$129,189 reported as deferred outflows of resources related to OPEB resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending December 31, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | OPEB | | | | | |
|-------------|-----------------|--|--|--|--|--|
| Year Ending | Expense | | | | | |
| June 30, | Amount | | | | | |
| | | | | | | |
| 2020 | \$ (58,220) | | | | | |
| 2021 | \$ (58,220) | | | | | |
| 2022 | \$ (58,220) | | | | | |
| 2023 | \$ (58,220) | | | | | |

B. Minimum Unassigned Fund Balance Policy

The City has formally adopted a fund balance policy regarding the minimum fund balance for the General Fund. The policy establishes a minimum General Fund balance of 40% percent of the subsequent year projected expenditures and transfers out. At December 31, 2019, the fund balance of the General Fund was 40% percent of the subsequent year's annual projected expenditures and transfers out.

Note 13: PENSION PLANS SUMMARY

The City has reported the following balances for defined benefit pension plans of the City:

| | | | F | PERA Plans | | | | | |
|---------------------------------------|------|------------|----|------------|----|------------|-----------------|------------|------------|
| | GERF | | | PEPFF | | Subtotal | FRA | City Total | |
| Net pension asset | \$ | _ | \$ | _ | \$ | _ | \$ 4,959,475 | \$ | 4,959,475 |
| Deferred outlows of pension resources | \$ | 868,574 | \$ | 8,926,107 | \$ | 9,794,681 | \$ 99,007 | \$ | 9,893,688 |
| Net pension liability | \$ | 10,742,410 | \$ | 8,901,130 | \$ | 19,643,540 | \$ _ | \$ | 19,643,540 |
| Deferred inflows of pension resources | \$ | 2,110,099 | \$ | 11,738,418 | \$ | 13,848,517 | \$ 966,553 | \$ | 14,815,070 |
| Pension revenue | \$ | 25,000 | \$ | 112,873 | \$ | 137,873 | \$ 541,606 | \$ | 679,479 |
| Pension expense | \$ | 1,370,881 | \$ | 1,648,435 | \$ | 3,019,316 | \$ 257,786 | \$ | 3,277,102 |

Note 14: SUBSEQUENT EVENTS

Shortly after the 2019 fiscal year-end, the worldwide spread of the novel coronavirus (COVID-19) has caused significant volatility in the economy and financial markets. There is significant uncertainty about the breadth and duration of potential disruptions related to COVID-19 and its economic impact in the United States and around the world. At this time, the City is unable to determine what effect this may have on its future financial condition and operation.

CITY OF PLYMOUTH, MINNESOTA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended December 31, 2019

A. GENERAL EMPLOYEES RETIREMENT FUND PENSION PLAN

1. 2019 Changes

- Changes in Actuarial Assumptions:
 - o The mortality projection scale was changed from MP-2017 to MP-2018.
- Changes in Plan Provisions
 - The employer supplemental contribution was changes prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2. 2018 Changes

- Changes in Actuarial Assumptions:
 - o The mortality projection scale was changed from MP-2015 to MP-2017.
 - The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

• Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- O Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- o Contribution stabilizer provisions were repealed.
- O Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- o For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

3. 2017 Changes

- Changes in Actuarial Assumptions:
 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for nonvested deferred member liability.
 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years, to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

A. GENERAL EMPLOYEES RETIREMENT FUND PENSION PLAN - CONTINUED

- Changes in Plan Provisions:
 - The state's contribution or the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
 - The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

4. 2016 Changes

- Changes in Actuarial Assumptions:
 - The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
 - The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
 - Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

5. 2015 Changes

- Changes in Actuarial Assumptions:
 - The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.
- Changes in Plan Provisions:
 - On January 1, 2015 the Minneapolis Employees Retirement Fund was merged into the General Employees
 Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position
 by \$892 million. Upon consolidation, state and employer contributions were revised.

B. PUBLIC EMPLOYEES POLICE AND FIRE FUND PENSION PLAN

- 1. 2019 Changes
 - Changes in Actuarial Assumptions:
 - o The mortality projection scale was changed from MP-2017 to MP-2018.

2. 2018 Changes

- Changes in Actuarial Assumptions:
 - o The mortality projection scale was changed from MP-2016 to MP-2017.
- Changes in Plan Provisions:
 - Postretirement benefit increases were changed to 1.00 percent for all years, with no trigger.

B. PUBLIC EMPLOYEES POLICE AND FIRE FUND PENSION PLAN - CONTINUED

- O An end date of July 1, 2048 was added to the existing \$9.0 million state contribution.
- New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier.
- Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2020.
- o Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- O Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

3. 2017 Changes

- Changes in Actuarial Assumptions:
 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates.
 - o Assumed rates of retirement were changed, resulting in fewer retirements.
 - The Combined Service Annuity (CSA) load was 30 percent for vested and nonvested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for nonvested members.
 - The base mortality table for healthy annuitants was changed from the RP-2000 Fully Generational Table to the RP-2014 Fully Generational Table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 Disabled Mortality Table to the mortality tables assumed for healthy retirees.
 - Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
 - Assumed percentage of married female members was decreased from 65 percent to 60 percent.
 - Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
 - o The assumed percentage of female members electing joint and survivor annuities was increased.
 - The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064, and 2.50 percent thereafter.
 - The single discount rate changed from 5.60 percent to 7.50 percent.

B. PUBLIC EMPLOYEES POLICE AND FIRE FUND PENSION PLAN - CONTINUED

4. 2016 Changes

- Changes in Actuarial Assumptions:
 - The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2037 and 2.5% thereafter to 1.0% per year for all future years.
 - o The assumed investment return was changed from 7.9% to 7.5%.
 - The single discount rate changed from 7.9% to 5.6%.
 - The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

5. 2015 Changes

- Changes in Actuarial Assumptions:
 - The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2037 and 2.5% per year thereafter.
- Changes in Plan Provisions:
 - \circ The post-retirement benefit increase to be paid after attainment of the 90% funding threshold was changed, from inflation up to 2.5%, to a fixed rate of 2.5%.

C. PLYMOUTH FIREFIGHTERS' RELIEF ASSOCIATION

1. 2019 Changes

- Changes in Actuarial Assumptions:
 - The expected investment return and discount rate decreased from 7.00% to 6.50% to reflect updated capital market assumptions.
 - The mortality assumption was updated from the rates used in the July 1, 2017 Minnesota PERA Police and Fire Plan actuarial valuation to the rates used in the July 1, 2019 Minnesota PERA Police and Fire Plan actuarial valuation.
 - O Deferred members terminating after May 17, 2018 have the option of an income earning benefit on the amount of their accrued lump sum pension. We have assumed a 3% rate of return.
 - The inflation assumption decreased from 2.75% to 2.50%.

• Changes in Plan Provisions:

The lump sum benefit amount increased from \$10,000 to \$10,500. Deferred members terminating after May 17, 2018 have the option of an income earning benefit on the amount of their accrued lump sum pension. The reduction in the lump sum pension was changed from 4% per year for less than 20 years of service to 12% per year for less than 10 years of service.

CITY OF PLYMOUTH, MINNESOTA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended December 31, 2019

C. PLYMOUTH FIREFIGHTERS' RELIEF ASSOCIATION - CONTINUED

- 2. 2018 Changes
 - Changes in Plan Provisions:
 - o Increase in the lump sum pension from \$9,500 to \$10,000 per year of service.
- 3. 2017 Changes
 - Change in Actuarial Assumptions:
 - Mortality and termination rates were changed to those used in the most recent Minnesota PERA Police and Fire Plan actuarial valuation.
- 4. 2016 Changes
 - Change in Actuarial Assumptions:
 - o The discount rate was changed from 6.0% to 7.0%.
 - Changes in Plan Provisions:
 - o Increase in the lump sum pension from \$9,000 to \$9,500 per year of service.
 - The years of service required to take a lump sum pension was reduced from 10 years of service to 5 years of service if after age 50.

D. PLYMOUTH OPEB PLAN

- 1. 2019 Changes
 - Changes in Actuarial Assumptions:
 - o The health care trend rates were changes to better anticipate short term and long term medical increases.
 - The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2016 Generational Improvement Scale (with Blue Collar adjustment for Police and Fire Personnel) to the RP-2014 White Collar Mortality Tables with MP-2018 Generational Improvement Scale (with Blue Collar adjustment for Police and Fire Personnel).
 - o The retirement and withdrawal tables for Police and Fire Personnel were updated.
 - o The discount rate was changed from 3.30% to 3.80%.

SPECIAL REVENUE FUNDS – NONMAJOR

<u>Recreation Fund</u> - Transfers are received from the General Fund and revenue from participants in the City's recreational programs. These revenues are used to finance the recreational programs offered to the citizens of Plymouth and other participants.

<u>Parkers Lake Cemetery Maintenance Fund</u> - Revenues derived from the sale of cemetery lots are receipted into this fund and are used to finance cemetery maintenance costs.

<u>Community Development Fund</u> - This fund is used to account for funds to assist with financing the costs of community development functions, such as comprehensive plan updates, land use maps, and other development activities.

<u>Economic Development Fund</u> - This fund was established to account for activities to encourage economic development by supplementing conventional financing sources available to existing and new businesses.

<u>Community Development Block Grant Fund</u> - This fund receives and expends the City's allocation of the Federal Community Development Block Grant Program funds. The primary beneficiaries from the activities of this fund are persons of low and moderate income.

<u>Lawful Gambling Fund</u> - The Plymouth Lions manage lawful gambling operations in the City of Plymouth. The City receives fees and makes expenditures in accordance with state statutes.

CAPITAL PROJECTS FUNDS – NONMAJOR

<u>Minnesota State Aid Fund</u> - This fund is used to account for the City's allocation of the state collected highway user tax. The allocation is based on population and need for construction of designated state aid streets in the City.

<u>Community Improvement Fund</u> - This fund is used to account for expenditures, which may be made only for items of a capital nature. Allowed expenditures are provided for by ordinance. Funds are deposited into this fund from surplus money or special assessment collections that remain after an improvement project has been fully funded and the bonds issued for the project paid.

<u>Park Replacement Fund</u> - This fund is used to account for the accumulation of resources for the major repairs and replacement of the City's park facilities and trails.

<u>Project Administration</u> - Revenues received are a portion of all special assessments, which are levied on benefiting properties, and are used to provide funds for project contingencies and other special projects.

<u>Park Construction Fund</u> - These funds are used to account for the monies received from land developers and are used for the acquisition and development of park land.

<u>Capital Improvement Fund</u> - This fund was established to accumulate resources for capital improvements, such as building construction, without the need to issue bonds.

<u>Tax Increment Projects Fund</u> - This fund is used to account for expenditures incurred in the construction of public collector and distributor roadway improvements, drainage improvements, and other public development costs in the City.

PROPRIETARY COMBINING AND INDIVIDUAL FUNDS

Enterprise Funds - Nonmajor

<u>Solid Waste Management Fund</u> - The Solid Waste Management Fund provides collection services for various recyclable materials. Solid waste expenditures are primarily costs for curbside collections.

<u>Field House Fund</u> - The Field House Fund accounts for the operations of an inflatable dome erected over an indoor soccer field from October through March. Activities include soccer, football, golf, and walking.

Internal Service Funds

<u>Central Equipment Fund</u> - The Central Equipment Fund was established to own and maintain all operating equipment of the City. Equipment maintenance, repair, and replacement costs are provided from rental rates which the Central Equipment Fund charges the City's operating departments for use of equipment.

<u>Public Facilities Fund</u> - The Public Facilities Fund was established to provide services for the operations of City facilities. Facility maintenance, repair, and replacement costs are provided from charges to the City's operating departments for use of the facilities.

<u>Information Technology Fund</u> - The Information Technology Fund was established to account for the planning, designing, and implementing of information systems. Equipment and software maintenance repair, and replacement costs are provided from rental rates charged to the City's operating departments for use of equipment.

<u>Risk Management Fund</u> - The Risk Management Fund administers the City's property, casualty, and self-insured worker's compensation insurance programs. Fund revenues are primarily charges to other funds and interest earnings.

<u>Employee Benefits Fund</u> - The Employee Benefits Fund serves as the recording fund for all employee fringe benefits. Fund revenues are primarily charges to other funds and interest earnings.

<u>Resource Planning Fund</u> – The Resource Planning Fund is used to account for the accumulation of resources for future projects.

COMPONENT UNIT FINANCIAL STATEMENTS

HOUSING AND REDEVELOPMENT AUTHORITY OF PLYMOUTH (HRA)

The HRA is a component unit of the City. Its operations are presented as a separate column on the combined financial statements labeled component unit.

GOVERNMENTAL FUNDS

<u>Housing and Redevelopment Authority General Fund</u> - This fund is used to account for the general programs and activities of the HRA. Revenues are derived from the HRA property tax levy. Expenditures include rental subsidies for senior citizens, housing planning, and other general housing and redevelopment activities.

<u>Housing Assistance Special Revenue Fund</u> - This fund is used to account for federal grants used for low-income rental assistance.

PROPRIETARY FUNDS

<u>Plymouth Towne Square Enterprise Fund</u> - This fund accounts for the operation of the Plymouth Towne Square Senior Housing Development. This development is a 99-unit senior independent living community for moderate and low-income Plymouth citizens. A portion of the HRA property tax levy subsidizes the project.

<u>Vicksburg Crossing Enterprise Fund</u> - This fund accounts for the operation of the Vicksburg Crossing Senior Housing Development. This development is a 96-unit senior independent living community for Plymouth citizens. A portion of the units are rented at affordable rental rates and the remainder are at market rates.

HOUSING AND REDEVELOPMENT AUTHORITY OF PLYMOUTH, MINNESOTA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED DECEMBER 31, 2019

| NET | CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS | \$ 69,008 |
|-----|---|--------------|
| Amo | ants reported for governmental activities in the statement of activities are different because: | |
| 1. | Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. | |
| | Depreciation expense | (5,839) |
| 2. | Revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds. | 25,215 |

CITY OF PLYMOUTH, MINNESOTA NOTES TO FINANCIAL DATA SCHEDULE Year Ended December 31, 2019

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial data schedules are presented on a full accrual basis of accounting. The information in these schedules is presented in accordance with the U.S. Department of Housing and Urban Development (HUD), Office of Public and Indian Housing, Real Estate Assessment Center and the Financial Assessment Subsystem-Public Housing (FASS-PH). Therefore, some of the amounts presented in these schedules may differ from the amounts presented in, or used in the preparation of, the City's basic financial statements.

STATISTICAL SECTION

CITY OF PLYMOUTH, MINNESOTA STATISTICAL SECTION (UNAUDITED)

This part of the City of Plymouth, Minnesota's (the City) Comprehensive Annual Financial Report (CAFR) presents detailed information as a context for understanding what the information in the financial statements, not disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant revenue source, including property tax revenue.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment in which the City's financial activities take place.

Operating Indicators

These schedules contain service and infrastructure data to help the reader understand how the information in the City's CAFR relates to the services the City provides and the activities it performs.

| 2019 | | 8,503 | | 2,251 | 6,252 | 0.05% | 79 | |

Note: Details regarding the city's outstanding debt can be found in the notes to the financial statements.

⁽¹⁾ See the Schedule of Assessed Value/Tax Capacity Value and Estimated Market Value for property value data and population.

⁽²⁾ The City is using governmental fund balance restricted for debt service. We believe this to be the best amount available to present a consistent net amount when refunding bonds are held for payment, which are not restricted on entity-wide statements due to conversion for full accrual accounting.

CITY OF PLYMOUTH, MINNESOTA DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF DECEMBER 31, 2019

(amounts expressed in thousands)

| Governmental Unit | 0 | Debt utstanding | Estimated Percentage Applicable * | Estimated Share of verlapping Debt |
|---|----|--------------------|-----------------------------------|---|
| Debt repaid with property taxes: | | | | |
| Hennepin County | \$ | 1,334,420 | 7.6% | \$ 69,908 |

| Subtotal, overlapping debt | | | | 262,812 |
| City of Plymouth direct debt | | | | 8,270 |
| Total direct and overlapping debt | | | | \$ 271,082 |

Source: Hennepin County, Minnesota

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City of Plymouth. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Plymouth. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

^{*} The percentage applicable to the City of Plymouth was determined by dividing the portion of tax capacity within the City by the total tax capacity of the taxing jurisdiction.
