# **Rain Garden** for Pollinators

Your pollinator planting can do double duty and improve water quality if it is also a rain garden! These plants will also work well in moist garden conditions. The selected species in this garden and bloom times make it a great butterfly garden.

Fox Sedge

Adds texture and beautiful seed heads to a rain garden. It is a tough plant that can easily handlethe saturated conditions of a raingarden basin.

5 plants

These low-growing fuzzy plants slowly form carpets of foliage. In the spring their flowers rise up gracefully 6"-8"

above their

leaves.

**Pussy Toes** 

12 plants

Blue Eyed Grass

is a bunch forming early summer bloomer. Not a true grass, its dainty sky blue flowers brighten the early summer garden, and is a great edging plant.

Hoary Vervain Bright sprires of

color to the summer garden that look great against the bright green of Fox Sedge. It is a host to Common Buckeye butterfly larva.

Swamp Milkweed

The bright flowers of Swamp Milkweed are unforgetable, and much loved by pollinators. It tends to spread, plan to divide this plant when it outgrows your garden space.

Joe Pye Weed Prairie Onion Covered with

Lavender mid to late colored stary summer blooms in mid-summer rise blooms, Joe Pye is a butterfly from bright green magnet. It will clump forming flat-leafed spread, be prepared to foliage. Will slowly divide this plant create colonies as the plants by the third year to share become more with others! established.

5 plants

attract bees and butterflies and blooms well into the fall. Can take part shade conditions, but needs moist soil.

5 plants

Flat-Topped

Enjoyed by

pollinators as

well as rabbits

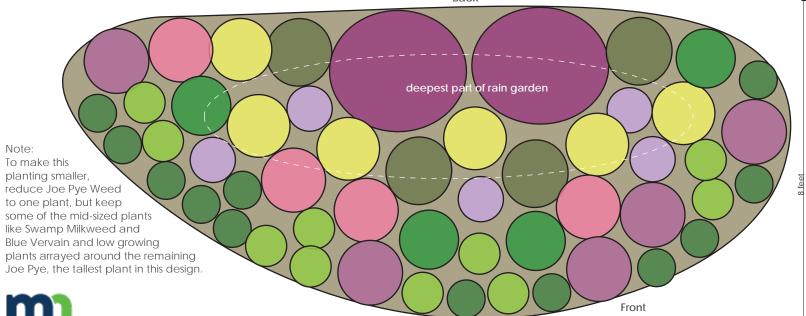

Aster

diverse

3 plants

**Bloom Time** May June July August September-Oct. Back

Featured Pollinator: American Lady Vanessa virginiensis

Caterpillar hosts include **Pussy Toes** 

Nectar plants include Swamp Milkweed, Joe Pye Weed, Blue Lobelia, and Flat-Topped Aster

# **Substitutions** for selected species

Use plants found within their natural range, this helps protect nearby native plant communities and provides plant species that are sure to be compatible with local insect populations.

## Fox Sedge:

Sweet Flag, Blue Flag, Big Bluestem, Indian Grass, Long Beaked Sedge\*, Tussock Sedge\*, Hop Sedge\*, Wood Sedge\*, River Oats,

## **Pussy Toes:**

Wild Stawberry\*, Trout Lily\*, Hepatica\*, Bloodroot\*, Rue Anemone, Common violet\*, Bishop's Cap, Spring Beauty\* Creeping Phlox. low growing Sedums•

#### **Blue Eyed** Grass:

Bishop's Cap, Wild Columbine, Wild Ginger\*, Bloodroot,\* Hepatica\*, Large-flowered Bellwort\*, Foam Flower\*, Alumroot, Calamintha. Golden **Alexanders** 

#### Blue Vervain:

Culver's Root. Mist Flower. Michigan Lily, Wild Phlox, Garden Phlox . . Meadow Rue. Marsh Blazingstar, Rattlesnake Master. Ironweed, Red Columbine, Rose Mallow

#### Swamp Milkweed:

Poke milkweed \*. Turtlehead\*, Sensitive Plant, Jacob's Ladder\*, Blue Giant Hyssop\*, Cardinal Flower\*, Foxglove Beards-tongue\* Thimbleweed

### **Nodding** Onion:

Larkspur, Shooting Star, Rue Anemone\*, Pasque Flower, Prairie Smoke. Wood Lily, Wild Lupine, Bishop's Cap\*, Spotted Bee-balm\*, **Bottle Gentian** 

# Joe Pye Weed:

Angelica, Great Indian Plantain\*, Boneset. Button Bush, Pagoda Dogwood\*, Ninebark\*, Queen of the Prairie, Sweet Joe Pye weed\* Ironweed

#### Blue Lobelia:

Turtlehead. Self Heal. Monarda\*, Obedient Plant, Cardinal Flower. Woodland Phlox, Virginia Mountain Mint\*, Wood Lilv. Rose Mallow, Hairy Wood Mint\*

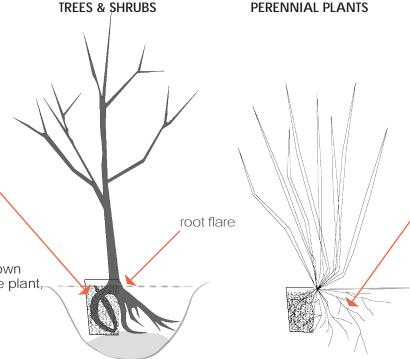

#### Calico Aster:

New England Aster\*, Smooth Blue Aster, Stiff Goldenrod\*, Woodland Phlox, Virginia Mountain Mint\* Bottle Gentian. **Button Blazing** Star\*, Frost Aster, Giant Hyssop\*

#### non-native \* Part Shade to Shade option.

# **Planting Tips** for new gardeners

- Prepare your new garden bed. Use methods found on BWSR's Creating Residential Pollinator Habitat page
- Dig a hole as deep and 2-3 sizes wider than the pot. Remove the pot.
- Loosen roots and remove any roots that have growing a circle around the base of the plant.
- The soil level should be just below the flare of the tree or shrub and the base of your plant.
- Spread roots, then re-fill hole. Tamp soil down gently around the roots. Mulch around the plant, but don't place mulch against the trunk.
- Water immediately after planting, then once a week for the first summer

#### PERENNIAL PLANTS

- Prepare your new garden bed. Use methods found on BWSR's Creating Residential Pollinator Habitat page
- · Dig a hole as deep and 2-3 sizes wider than the pot.
- Remove the pot.
- Loosen roots and remove any roots growing in a circle around the base of the plant.
- Mulch around the plant, but don't place mulch against the stem.
- · Water immediately after planting, then once a week for the first summer.
